Time: 12:30-5:00

Snacks and beverages provided...

If you plan on joining us and for directions:

RSVP to NWA Office if interested 818-222-7477

Come take a stroll around the garden at our second annual Garden Showing....

My garden is an excellent example of what one can do with a hillside. The garden is a Mediterranean garden with California native plants. I also have a succulent garden, rose garden and interesting metal art throughout the garden that I have collected over many years. The garden includes non sloped areas with an outdoor BBQ and seating areas. I have been accumulating plants for over 25 years and have been gardening at this house since 1996.
